What Enterprise includes

Every clinician found first, in every specialty you offer.

Patients search by specialty and city. Enterprise puts your whole medical staff at the top of those searches on DoctorDirectory.ai, gives you the market and competition numbers behind every service line, and hands your marketing to DocFluence.

Featured for every clinician

Shown first on every page they match

Each vetted clinician on your staff appears in the labeled Featured block on every DoctorDirectory.ai search, city and specialty page they match, ahead of free listings, 100% of the time.

Every specialty, every location

One program for the whole institution

Cardiology, primary care, orthopedics and the rest, across every campus and clinic you run. One point of contact and custom pricing for your staff size.

Reports for every specialty and city

Market, SEO and competition intel

Market Analysis, SEO Analysis, Market Intel and Competition Intel: where patients near you search, how your pages show up on Google, what is changing, and who ranks above you.

Patient data for each clinician

Know where patients come from

How patients found each clinician (Google, AI assistants, social media, your own site), how many called, and every appointment request, sent straight to your scheduling team.

Profiles patients trust

The full written profile

A plain-language page for each clinician, researched from public professional records with a source beside every claim, plus office photos and an intro video.

DocFluence

Your marketing, run around the clock

Content, SEO, Google rankings, social media, ads, reviews, a built-in AI-native CRM and reporting, from one login. More on the next page.

Vetting is never for sale. Every clinician is checked the same way as everyone else: license, board certification and public record. Featured placement is always labeled, rotates evenly when more than five match a page, and never changes the order of regular results.

Powered by DocFluence

A 24/7 marketing team that is AI native and never sleeps.

DocFluence is the marketing platform behind DoctorDirectory.ai, built to outrank everyone else in your market. It researches what patients search for, writes and publishes for every specialty you offer, watches your Google rankings every week, and keeps improving what works. Your entire brand runs from one login.

SEO pages and articles

Researched from real search demand in Semrush, Google Search Console and Google Analytics, written in your voice for every service line and location.

Google rankings, weekly

Reads your Search Console numbers every week, finds the pages close to page one, and improves them first.

Social media, daily

On-brand posts across Facebook, Instagram, LinkedIn, X, Threads, Pinterest and TikTok, written from your own articles.

Video, podcast, visuals

Short explainer videos, carousels, infographics and podcast episodes made from your articles.

Ads that are watched

Google and Meta campaigns built from your best pages, with spend and results checked for you.

Patients answered 24/7

A website chatbot grounded only on your own content, plus replies to comments and messages on your social accounts.

Reviews and testimonials

Praise from patients and press gathered in one place and shown where new patients look.

Built-in AI-native CRM

Every inquiry in one place, with email and text follow-up sequences so no lead goes cold.

Reporting you can read

Search, site, social and video results in one dashboard, with a plain-language weekly report.

Runs on its own, with you in charge. DocFluence works around the clock and waits for your approval wherever you want one. Your marketing, compliance and communications teams decide what needs sign-off before it goes live.

The proof

We did it for ourselves first.

DoctorDirectory.ai went live on Google in late September 2026. On October 15 we opened every doctor profile to Google and let DocFluence run. DocFluence built and ranked more than 2,000 pages on DoctorDirectory.ai in just 3 weeks.

Source: Google Search Console for doctordirectory.ai, October 8 to November 5, 2026; every doctor profile was opened to Google on October 15. The last two or three days were still filling in. Page one means an average position of 10 or better. Google decides its own rankings, so no one can promise a position; DocFluence is built to work around the clock to earn them.

How onboarding works

From first call to first rankings.

1

We talk

Tell us your specialties, locations and goals. We call you within one business day and put together pricing for your staff size.

2

We vet your staff

Every clinician is checked the same way as everyone else: license, board certification and public record. Vetting is free and never for sale.

3

Your clinicians go Featured

Each vetted clinician is shown first, in the labeled Featured block, on every DoctorDirectory.ai page they match, and you get a market report for each specialty and city.

4

DocFluence goes to work

Your AI-native marketing team learns your brand, then starts researching, writing, publishing and ranking, and sends you a weekly report. It waits for your approval wherever you want one.

Put your entire medical staff ahead of your competitors.

Tell us about your institution at doctordirectory.ai/enterprise and a person on our team will call you within one business day.
